"BANTER LINE" REPORT

"How To Use Banter Lines To
Instantly Establish Yourself As
A... Fun, Playful, And Flirt!"

Introduction

Few years ago, I remember I was at the bar with one of my close friends, *Fred*.

As we're ordering our drinks at a bar, he noticed a young HOT chick all by herself sitting at the corner table sipping her drink. Since he had a habit of approaching girls on a regular basis, he went up this gorgeous and said, "Hi, I know your face. You're from here somewhere, aren't you?"

I was looking at both of them, and I could sense she did not really like him. And it wasn't even her fault.

Whenever she tried to talk to him... he would just raise his voice and talk over her.

"Miss April 1996..." he would blurt out.

The veins in her neck started to protrude.

"No, these eyes NEVER lie... not these babies. I see something once and it's locked in... like forever!" he continued in an animated way.

"What?" without a slightest hint of a grin.

"Yeah, I can see *everything* in my head... you like Samba, don't you?... your favorite movie is Sound of Silence... and, you love to help underprivileged kids... I am right, ain't I?"

After a pause for a few seconds, he began looking her up and down.

"You've become more beautiful now, in this bar.... and in front of me.... completely well-dressed!"

"You better shut up" she glared at him.

"I love it when you beg..." he said to her instantly, as he was completely unfazed by her reaction.

"I am not Miss April, nor Miss March, or whoever you think I am..." she said as she gave him a playful slap across his chest.

"Would you please try not getting involved in *any* kind of physical act that is not in any way erotic in nature." He barked at her.

"Please, please, please, leave..." she said, but now with a hint of a fondness.

He then starts to walk backwards.

"Okay, I am going... Okay, here I am going... "

He's now about 20 feet from her. "There I go... you see... that's me going..." He is waving his hand, too. "Goodbye."

Fred joined me and we went to the other side of the bar and took a seat at one of the tables.

I asked him, "Was that girl really in *Playboy*?"

"Nah, I think she was in my science class." he responded. "That whole 'Playboy Thing' was just something I saw Bruce Willis do once..."

"Way to make friends man.... that girl hates you." I said.

"No, she won't." he said.

"That's because I was setting myself as a flirt. You've got to quickly establish yourself as a flirt. And, guess what? Once a girl knows that you're a flirt... you can get away with almost ANYTHING."

That was the best advice that I NEVER took

BUT that was when I was a teenager. I was given the world's best advice on how to get girls... but I was too stubborn, young, and wayyy naive to realize it.

Now, years later, I am going to pass that wisdom to you.

You see, **you've got to quickly establish yourself as a 'flirt.'**

The first year of my college... Fred had a lot easier time with women than I actually did. While I don't think he ever banged "Miss April" I know he did get inside with her circle of friends... and of course, I am certain that he banged a quite a few of them.

... And that was possible for Fred because he knew what a lot of guys don't...

The Theory of Expectations!

Let me ask you something.

Have you been around a girl who is sort of a dork, boring, and a wall flower? Do you often find yourself unconsciously acting out of her expectations?

It has happened to me countless of times.

After few minutes with them, I tend to become like themselves - quiet, shy, and,... sort of boring.

And, if I sense that the other person has pigeon-holed me as 'the shy guy' then I feel really difficult to show other interesting side of my personality... like the 'playful' and the 'funny' side.

It's almost like I let her 'image of me' define how I act.

And, guess what happens after that? I become 'the shy guy.'

That's what I mean by theory of expectations.

Allow me make it even simpler: The ‘first impression’ we make on someone determines the rest of our interactions with them.

So, if your first impression is of a ‘shy’ (or ‘quiet’) guy to the other person... then you’re going to find yourself acting that way -- quiet, shy, and reserved.

And, if your first impression is of a ‘nice’ and ‘friendly’ guy, then you’re going to find yourself playing the role of a ‘Nice Guy.’

Similarly, if the first impression of you is of a ‘flirt,’ then you’re going to find yourself acting flirtatious and fun.

A Self-fulfilling Prophecy!

If a person thinks you’re stupid, clever, or WHATEVER, then they’ll treat you the exact same way. If they treat you as if you’re stupid, clever, or WHATEVER, you tend to act, behave, and even become that way.

And thus, the person has their prophecy about you fulfilled!

So let’s go back to the example of my friend Fred who immediately established himself as a ‘flirt’ with that young blonde in the bar.

The girl’s expectation of Fred is that he’s a ‘flirt,’ and that’s why, he’s SELF-AMUSED and UNAFFECTED.

Here’s what happens then: She is going to interact with Fred and she’s going to treat him like he’s the kind of guy who flirts, which, in return, will make it even more easier for him to continue being a ‘flirty’ and a ‘funny’ person.

Now, I want you to think about a day when you had a conversation with the girl who found you really funny. Got it? Great. If you can recall, you’ll remember that

most of the time you didn't have to say anything special but they're already beginning to laugh...

... because they had an expectation of what you're going to say or how you're going to react.

It creates a sense of momentum that has a 'snowball effect'...

How does this all relates to you?

So now you understand the theory of expectation exists, **you have two options:**

a) Let the theory of expectation limit you and keep you from meeting (and having fun) with the ladies, or...

b) use the 'theory of expectations' to your ADVANTAGE.

I don't know much about you... but I like to take every opportunity I can get when I'm interacting with the girls out there.

Here's what I learned from Fred: **You need to immediately establish yourself as a flirt.**

The longer you wait to start flirting with her, the more difficult it's going to be to make the transition from a 'friendly (normal) conversation' to a 'flirtatious (fun)' one.

So, as you can see, if you don't flirt with her immediately -- within few minutes into your interactions -- then you might not even get a second chance to flirt with her.

Why?

Here's why: If you take too long to flirt, she might have already dismissed you as another 'boring' chump.

Listen.

It has nothing to do with *her*... she gets hit on by A LOT of guys out there, since the day she could walk and run, and she has to make a quick decision whether or not they want to keep talking with you...

If she senses you're 'boring'... well, she's going to respond to you in a boring way, too, and give you almost NOTHING to work with... in hope that you get the point and walk away. Thus, fulfilling her expectations...

BUT, on the other hand...

If you quickly establish yourself as a 'flirt' who loves having fun... she's going to respond to you in a 'flirtatious' way, too, and give you TONS of things to work with... and thus, again, fulfilling her expectations.

Here's what you need to do: You want to make her think quickly "Wow.... so, this is the type of interaction it's going to be... THIS guy totally gets it."

And the fact is... most guys don't (and sadly, never) get it.

But, since you're different than most average Joes out there, and you show her that you do get it... things starts to get A LOT easier for you.

Get it? Still NO? Okay so...

Here's what you're trying to show to her: You're showing her that you're the kind of guy who is CONFIDENT and COMFORTABLE talking to HOT chicks. And that, you can have MASSIVE fun while doing it.

What does this guy looks like?

Here's what this guy looks like:

- The guy is sure of himself.
- **The guy is self-amused.**
- The guy is animated.

- **The guy is unaffected by what she says.**
- They guy is slightly childish in an endearing sort of way.
- **They guy is completely comfortable being who he is.**

The faster she sees you as this kind of guy... the easier the rest of the conversation is going to be. And, most importantly, my friend, it's going to A LOT easier to switch from a 'friendly' conversation to 'sexual.'

And, the good news is: It's not as has as you might have imagined. In fact, it's really easy to establish yourself as a 'flirt.' It's just a matter of a few well-timed, well-delivered flirtatious banter lines that'll 'flip the switch' in her mind...

... and make her go CRAZY thinking... "Oh... he's THAT kind of guy..."

Once you make her think about you this way... the 'theory of expectations' takes over and you WIN. Everything from there becomes easier. It's like you begin to swim with the tide... instead of against it.

The Method to the Madness

The most important thing is: Once you UNDERSTAND how a flirtation actually looks and works, then you'll start to do them as I do, and all the mystery will start to untangle itself.

Listen.

There's a 'covert language' that women immediately recognize as 'flirtation'... even if you're not hitting on her, complimenting her, or asking questions to get to know her better.

Now, OF COURSE, there are other alternatives that exists, and I am going to show you exactly how to take advantage of it.

The method that I'm going to unravel are going to crack this code that very few men understand (and take advantage) of... and allow you to capitalize on the theory of expectations.

Once you know and understand how this code looks and works, you'll gain an unfair advantage over other 'clueless' guys out there, and it'll instantly give you all the control so that you can easily and effortlessly "ignite attraction" in conversations.

In this free report (see below), you'll discover 4 different methods that'll instantly help you crack the code of the 'flirting language.'

Here's a bigger fish for you to try when it comes to teasing and bantering: Throughout this report, I'm going to use the terms teasing and bantering as the same. And, before you go through all the examples, it's very important that you *first* understand what banter is.

So...

What is Banter?

Essentially, bantering is a way of exchanging remarks in a teasing and healthy way. But the most important thing that a banter does in a conversation is establish a 'role' for the two of you so that you can act them out in an interesting (playful) way.

In this report, I'm going to reveal to you banter lines and responses that you can use in your interactions women, in almost every kind of situations.

Warning!

Just a few moments ago, I told you that you'll have to establish yourself as a flirt to a woman *really* fast. So, when you're delivering these lines (below), you remember what I had said earlier.

The lines that you use MUST communicate:

1. You're sure of yourself.
2. You're absolutely comfortable with who you are and of yourself.
3. You are slightly childish (but in a good way).
4. You're animated.
5. You're self-amused (funny).

BUT, if you fail to communicate *any* of these traits to a woman during your interaction with her, you'll only come across as someone who is trying "hard" to fit in and your interactions will kind of seem forced (not natural) and it WON'T give you the results you're looking for.

And, here's another thing: 'Timing' is supercritical too when it comes to bantering, which you'll learn it as you continue to go out and practice delivering them.

With that said, let's dive straight in, shall we?

Banter Cheat Sheet #1:

“Banter Lines that'll help you establish the tone of the interaction early on”

Most guys they make a big mistake of WAITING until they've created a strong rapport with a women to start bantering and teasing with her. But, as I've already mentioned you earlier in this report, the best thing to do is start bantering (or teasing) with her asap.

You MUST prepare at least 4 to 5 banter lines prepared before you move on to a more 'normal' conversation.

For **example:**

The banter lines (below) WORKS best when used within few minutes into the interaction with a woman. These lines are easy to memorize and weaves naturally into your conversation. In addition, you must also consider the relevance and timing to the delivery.

The best way to deliver THESE lines is as if you suddenly noticed something about her... right after, let's say, 30 seconds to a minutes of talking to her.

1. "You're cool. You can help me pick up HOT chicks.."
2. "I hate you..."
3. "I can say that you and I aren't going to get along..."
4. "You're cute. Don't say a word. You'll only mess it up."
5. "Oh, so you're one of THOSE..."
6. "It's fine to feel nervous. It's cute."
7. "Okay, note to self: don't date her."

So what's happening here?

Well, as I said earlier in this report, the main purpose of these banter lines is to establish the tone of the conversation. Now, of course, relevance and timing is important too here because you're basically trying to squeeze them in without her giving you much.

Here's the second tip: Don't obsess about these banter lines. If she asks you to explain more... just let it slide, give her a sly smile, and change the subject.

Banter Cheat Sheet #2:

“Lines that implies she's interested (or hitting) on you...”

Here's another FUN way to establish yourself as a flirt: You'll try to set the frame that she's trying to get into your pants. If you do this playfully, and she'll know immediately that you're teasing her, and, in return, she'll have fun and play along.

The best time to deliver these lines is when it becomes clear to her that you're hitting on her. By reversing the roles, you can turn an awkward situation into something that is fun and comfortable.

The best way to deliver these lines (below) is as if you already know she wants you, but she's too shy to admit why she is talking to you.

Here are these banter lines:

1. "What other things you like about me?"
2. "So, you basically came here just to flirt with me?"
3. "Stop undressing me with your eyes."
4. "You're looking at me like a 6-year-old kid looking at a candy"
5. "Did you put roofies in my drink?"
6. "You're hitting on the wrong guy... I am not a boyfriend material. Look at that guy (point to some nerdy guy) looks better for you."

Remember: THESE lines works best only if you've used one or two of the banter lines given above.

I'm going to tell you this, again: You MUST banter immediately with women. If you don't, these lines can seem irrelevant later in the conversation.

Banter Cheat Sheet #3:

“Lines to deliver when she’s rambling on (or saying something stupid)...”

When you slowly start to understand and feel what bantering is all about, you’ll suddenly notice that women give you all kinds of material for you to tease them.

And, here’s the best part: Once you’ve successfully established yourself as a flirt, every woman will treat you that way, and she’ll give you unconsciously material to use.

The best time to deliver these lines (below) is to exaggerate how little sense she is making. This is an excellent time to be animated, and even slightly childish.

1. “Now you’re starting to scare me...”
2. “You’re aware you’re still talking right?”
3. “Bartender, I think you need to cut her off...”
4. “Let’s play a game. Let’s see how long you can hold a breath...”
5. “It’s a good thing you’re pretty, but once the looks are gone... you’ll be in trouble...”
6. “Now you are just making shit up as you go along?”
7. “I don’t know what you’re on but I am sure they offer rehab for it.”

Remember: You do NOT want to insult her or come across as mean. You’re just trying to be ‘fun’ and ‘playful.’

Banter Cheat Sheet #4:

“Lines to deliver when she’s acting cranky, boring, or uptight”

It’s true that sometimes women put up a ‘bitch shield’ when they first begin to talk to a guy they’re uncertain about.

These women don’t want to give off too much to the guy and encourage him to keep on talking, so what they’ll do is appear as if they’re tired, bored, and bitchy.

But, it’s your job, as a player, to use bantering to break through this ‘shield.’

The lines below convey the attitude that says, “I’m going to make you smile no matter how hard you resist...”

You’re basically saying to her that you know that underneath that cool exterior... she’s just like a cute little puppy dog.

1. “Oh... we’ve got a grumpy smurf here.”
2. “Oh... she’s very hostile when she hasn’t taken her nap.”
3. “I love it when you talk mean to me.”
4. “You know what your problem is... you’re just not spontaneous.”
5. “I bet you have a cute side somewhere. You just don’t show it.”
6. “Looks like someone put their cranky pants on this morning.”

Lines like these are meant for a girl who isn’t giving you much to go with, or has somewhat of an attitude.

These 4 cheat sheets above give you enough ammunition to quickly establishing yourself as a *flirt*.

Remember: Your attitude as you say these lines is just as important as the lines themselves.

Banter and teasing works for just about every situation... and it's the sure fire way to turn the tides on a woman who may be on the fence about you.

In fact, once you get really good you will notice that you can quickly change any girl's initial opinion for you... and can turn any conversation playful and fun.

Banter lines can be used to...

- *Create the 'you and me' vibe*
- *Avoid interview mode*
- *Open her up in a fun way*
- *Bring up the sex in a fun and playful way*
- *Overcome shit tests that women throw at you all the time*
- *Respond properly to the 'boyfriend objection'*
- *Or, respond to any objections she has about you*
